

# 2018 World "One Health" Day

"One Health" is a multidisciplinary approach to managing infectious diseases in people, animals and the environment. This event will showcase how researchers in Geelong are undertaking collaborative research to protect people, animals and the environment from infectious diseases.

Featuring presentations from: Geelong Centre for Emerging Infectious Diseases (GCEID)  
Deakin University  
University Hospital Geelong / Barwon Health  
CSIRO - Australian Animal Health Laboratory (AAHL)

- **Morning Session:** *Hear a range of research talks on the current understanding of diseases spread between animals and humans. And find out what is being done to protect wildlife, pets, farm animals and humans.*
- **Lunch Session:** *Your chance to speak and interact with researchers and clinicians working locally to manage infectious diseases. Refreshments provided*
- **Afternoon Session:** *Using the Hendra virus as an example, follow researchers and clinicians as they discover, diagnose, research and treat animals and humans exposed to an infectious virus.*

**When:** Thursday 15 November 2018

- Morning Session - 10am - 11:45am
- Lunch Session - noon – 1:15 pm
- Afternoon Session - 1:30 pm – 3pm

**Where:** St Mary's Building, 192 Myers Street, Geelong 3220

All welcome at this **free event**. Please feel free to drop in to one, two or all three sessions!
